Course Information: Introducing the most useful accounting course you'll ever attend: Preparations, Compilations, and Reviews! Written and taught by experienced practitioners, we give you applicable, relevant guidance at every step, including dozens of example report, engagement, and client letters, as well as unofficial checklists. Together, we will walk through a rapid review of the latest SSARS and alerts, plus discussion of the requirements for prepared financial statements and disclaimers. Each session also includes a deep-dive into requirements for preparations or compilations with example letters and reports. All of this is framed in real-life implementation tips and examples. Upon completion of this course, attendees will be able to identify the different Sections of SSARS, requirements of the ARSC, and characteristics of the new standards for AR-C Sections, including defined terms.
